Personal Statement

Enthusiastic and adaptable MSci student with a strong background in STEM education, computer science, and technology analysis. Studying at Loughborough University in the 2nd year of the MSci course.

Education

Loughborough University **2025-2029 (expected)**
MSci (Hons) Computer Science and Mathematics

All current module grades: 1st

Completed modules: Software Engineering, Programming and Databases, Logic, Mathematical Methods 1&2, Analysis 1&2, Algorithms, Foundations of AI, Numerical Methods.

Sir Isaac Newton Sixth Form **2023-2025**
3 A-Levels: Mathematics (A*), Computer Science (A), Physics (B).

Hethersett Academy **2018-2023**
11 GCSEs: Grades 9-6 (including Maths, English, Triple Higher Science, Computer Science, and Further Mathematics)

Employment

Technology Analyst at Succession Wealth **06/2026-09/2026**
I worked a Summer Placement at Succession Wealth working on a customised COTS CRM helpdesk (for Succession and London Wall Partners), alongside doing development work in a SCRUM team using Monday.com, and automation using Power Automate.

During this internship I also got to speak to a lot of people across the IT team to gain insight into the how the department functions (e.g. the CTO, Heads of Department, Business Intelligence, and the CISO).

Key Skills:

- Understanding of a Financial CRM system.
- Use of Microsoft Power Automate.
- SCRUM Fundamentals.
- Understanding of company organisation (e.g. Development, Operations, Security).
- Professional use of Microsoft Word and Excel.
- Use of Iress Xplan and development using pythonic Xmerge.
- Communicating with users explaining how to use the CRM, and fix problems when they occur.

Major projects completed:

- Developed Xmerge code for use on the live Xplan site for calculating the creation of Task Managers.

- Created an automation for notifying relevant departments when digital certificates are due to expire.
- Contributed to a site replication of the live Xplan site into the Test and Training sites SCRUM project through the creation of automated workflows.

ACTIVITY LEADER AND CAMP MANAGER AT NEXT THING EDUCATION CAMPS LTD 2024-2026

Worked as an Activity Leader and Camp Manager for Next Thing Education at camps across the Norfolk area.

Skills and Responsibilities:

- Organised activities for a camp of 40+ children.
- Managed time for my work and the work of others.
- Supported the leading of many camps through my experience with the company and knowledge of how the camps run.
- Worked with many activity leaders to deliver STEM sessions to children aged 5–13.

RETAIL ASSISTANT AT THE RANGE 2023-2024

- Communicated clearly with customers to promote sales.
- Collaborated with the tills team to serve a large quantity of customers.
- Organised shelving patterns to encourage more sales.

VOLUNTEERING

SCOUTING 2021-PRESENT

Worked with young people to promote spending time outdoors and doing outdoor activities. Through this I have completed safeguarding and risk assessment training to ensure the safety of all attendees.

SKILLS

TECHNICAL SKILLS

Proficient in Python, C++, MATLAB, Java, and SQL through A-Level and degree level programming work and coursework, as well as my work at Succession Wealth. Also well-versed in UML through the Software Engineering module.

PROBLEM SOLVING

Through the mathematics modules in my degree, I am taught to break down a problem through divide-and-conquer approaches, and to follow a path of logical inferences to a sensible conclusion.

TEAMWORK AND COMMUNICATION

Delivered a masterclass in topology with a group of peers through the Royal Institution, aimed at KS3 students.

PROJECTS

GAMES STORE MANAGEMENT SYSTEM

Developed a system for video and board game management in Python (Google Colab) for my Programming and Databases Module (Grade: 1st).

REAL-TIME 3D PHYSICS SIMULATION

Developed a ray-marching engine with realistic physics in C++ using OpenGL and GLSL for my A-Level coursework (Grade: B).

UNDERGRADUATE PROOF OF WEIERSTRASS' CONTINUOUS NON-DIFFERENTIABLE FUNCTION

Wrote a simple mathematics paper summarising Titchmarsh's proof that the Weierstrass function $f(x) = \sum_{n=0}^{\infty} b^n \cos(a^n \pi x)$ is continuous and not differentiable for odd a, $0 < b < 1$, and $ab > 1$.

ACHIEVEMENTS

CHIEF SCOUT'S PLATINUM AND DIAMOND AWARD

Completed the highest chief scout's awards in scouting through many hours of volunteering, expeditions and skills work.

DOFE BRONZE AWARD

Continued volunteering and improved upon current skills, concluding with an expedition.

HOBBIES AND INTERESTS

I take a great interest in music, where I have composed pieces for Music GCSE, I am self-taught in guitar and have achieved Grade 4 in Violin. I also enjoy speed solving Rubik's cubes, where my best time is 14 seconds using the CFOP method.

REFEREES

Available upon request.
